

CHEEKATI SUSHMA

Hubli, India — +91 9742968260 — cheekatisushma16@gmail.com
linkedin.com/in/cheekatisushma — github.com/SushmaCheekati

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C

Web Technologies: HTML, CSS, React, Node.js

Databases: MongoDB, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Docker, VS Code

Other: REST APIs, Linux Basics, Debugging

PROJECTS

Plastic Detection using NIR and Machine Learning

- Collected and processed Near-Infrared sensor data for plastic classification
- Trained machine learning models to identify plastic types with high accuracy
- Applied feature extraction and normalization techniques for better performance
- Evaluated results using confusion matrix and performance metrics
- Visualized predictions for real-time monitoring

Task Manager Web Application

- Built a full-stack task management system using React, Node.js, and MongoDB
- Implemented task creation, updating, deletion, and completion tracking
- Designed responsive user interface for improved productivity
- Integrated authentication and secure session handling
- Enabled real-time task updates and database persistence

EXPERIENCE

Full Stack Developer Intern — HA EGL Technologies Pvt. Ltd. Feb 2026 – May 2026

- Developed full-stack web applications using modern JavaScript technologies
- Built RESTful APIs and connected frontend with backend services
- Implemented authentication and efficient database operations
- Used Git and GitHub for version control and team collaboration
- Debugged and optimized applications to improve performance

EDUCATION

Bachelor of Engineering in Computer Science

AGM Rural College of Engineering & Technology, Hubli

2022 – Present

ACHIEVEMENTS

- Developed multiple academic and real-world software projects
- Built machine learning model for plastic detection using NIR data
- Secured Top 10 positions in multiple technical hackathons
- Anchored and hosted national and college-level technical events
